

SLS 9000

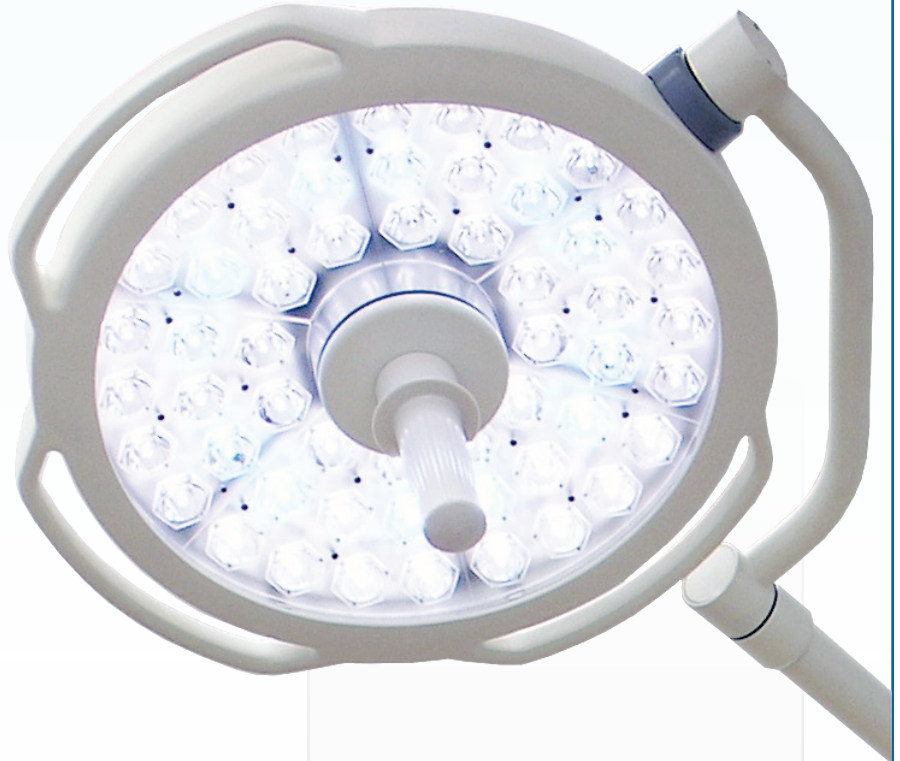

Portable Floor Light

Equipment for the way *you* operate

Energy saving and eco-friendly, with an ultra-long service life

The SLS 9000 Portable LED Light is a cost efficient portable light boasting a rated LED life of up to 30,000 to 50,000 hours.

The CAD designed multi-LED-lighting-beam produces lighting depth more than 55in., with up to 90,000 lux of central illumination. New alloy construction and a simple suspension system is easy to control and to be positioned accurately. This easily adjustable light system is suitable for pendant, wall-mounted and floor-standing lamps, meeting requirements of multiple operating rooms.
